2007

To our members,

We are proud to have added some new equipment to our pool this year. Besides two much-needed, heavy-duty barbecues, we have purchased an Automated External Defibrillator (AED), a very important life-saving device. Although we hope to never have to use it--our lifeguards are trained and certified on the use of the AED. Our neighboring pools, NPSC and OVSC, have also purchased AEDs this season.

Some of you may also have seen our new handicap lift installed and in use. We are pleased to have added this to our equipment list this year so our wheelchair-bound members finally have a way to get in and use the pool. A handicap parking space was also added.

The pool's last day of operation is set for Saturday, September 15th. We will again be grilling hot dogs from 1 - 3, unless we run out sooner.

Our final work party is scheduled for Sunday, September 16th from 10 - 4. This is your last opportunity to receive credit for maintenance hours.

We are looking for volunteer board members to run for Vice President, Treasurer, and Social. Please contact Kelly Phelan if interested in serving your neighborhood club.

The annual meeting will be held sometime in November. You will receive your meeting notification and ballots for board positions as well as proposed by-law changes with the November newsletter.

Thank you for a wonderful season. Hopefully we will see you this Saturday and Sunday.

End of Year BBQ!
